Recommendation for DEA Specialties

I have worked closely with DEA Specialties for several years and they are always very professional and do a good job. I usually contract with them for installing toilet partitions, accessories, and folding partitions. The quality of work is always outstanding. DEA is never on any of my punch lists and have had very few warranty call-backs. DEA's administrative side is very professional as well. I never have any issues with submittals, billing, or personnel. They are there when they say they'll be there.

DEA has done a broad range of projects for us including condominiums, apartments, and tenant finishes. I consider them extremely capable and able to build any kind of project that is awarded to them. One recent project DEA performed for us was the Arbor Terrace Apartments. This project was converting an extended stay hotel into 123 apartments. This was not an easy project and DEA got in there and took care of what they needed to do without any complaints.

DEA Specialties takes initiative to go beyond the expected parameters of the job.

Please feel free to contact me if you have any questions.

Sincerely,
