Damian,

Thanks to you, your installation team and DEA Specialties Co., Inc. for your work at the Hill Country Bible Church. The operable partition installation exceeded expectations both from a scheduling and coordination stand point and finished product. The effort it took to get the panels through the 4th floor window opening without having to remove the frame saved time and money. I appreciate your effort and look forward to the next time we can work together.

Sincerely,

Chasco Constructors, Ltd, LLP
